### **COURES OBJECTIVES**

It is expected that after going through the course, the student will be able to:

1. Know the refrigeration cycle.
2. Know the heating and ventilation systems.
3. Know air conditioning systems.
4. Know how to check the refrigeration system.
5. Understand system evacuation.
6. Know refrigerant and refrigeration oil
1. Know how to diagnose and rectify automotive air conditioning faults.

### **Materials uploaded so far:**

1. The refrigeration cycle
2. Heating and ventilation systems
3. Air conditioning systems
4. Checking the refrigeration system
5. System evacuation
6. Refrigerant and refrigeration oil
7. Diagnosis and rectification of automotive air conditioning faults.
